

The Terminal, Richmond's oldest newspaper, gives you the news you should have and will continue to protect your interests.

RICHMOND TERMINAL

The Terminal newspaper honestly works for the best interests of the taxpayers and works for more industries and Richmond pay rolls.

VOL. XXV

RICHMOND, CALIFORNIA, FRIDAY, JULY 25, 1930

No. 29

COMPARATIVE COSTS OF CITY GOVERNMENT

Local Situation Doesn't Look Good to the Taxpayer Who Must Pay

An Amended Charter With Revisions Commensurate With the Present Conditions Would Bring Relief Long Deferred

The Terminal newspaper has from time to time, published comparative figures relating to the cost of city government, but now it has received a report from a California municipality that should make interesting reading at this time, figures that "cap the climax."

The following tabulated comparative figures are taken from the municipal records of both Richmond and San Bernardino, the latter a city of 42,000, according to the present census, a city twice the population of Richmond.

These figures are absolutely correct; were checked and rechecked, and have been submitted to the Richmond charter committee for publication, that the people who pay the overhead for this municipal government may become familiar with the high cost, and why.

The Terminal is the only news paper in Richmond that has the "tenacity" or "nerve" to print these two columns of figure side by side and show the startling difference in cost of a city of 42,000 population and a city of 20,000, with such discrepancies.

Clip this out for reference, and show it to your neighbor. He will then be a candidate to join the Charter League, an organization that advocates a minimum tax rate and a square deal.

The Terminal is indebted to Mr. Lee D. Windrem, one of California's leading attorneys, a citizen of Richmond for 28 years, who had these figures prepared and accurately checked by an expert accountant. The figures appended are only the summary. The full statement will appear in the next issue of this paper. In submitting this report Mr. Windrem says:

"When considering the figures below please keep in mind that the late census shows our city to be a scant 20,000 in population while the same census shows San Bernardino to be in excess of 42,000. In this table of figures I have eliminated all expenditures save the department expenses and salaries; it would have been manifestly unfair to compare other expenses of an inland city with ours, and I have carefully refrained from doing so. With the additional details of expenses to be published next week I feel sure that the simplest citizen will be able to see how our city government expenses can easily be reduced at least \$150,000 per year without losing any efficiency."

"Some well-meaning people have expressed the belief that the cost of the city government of Richmond could not be reduced to such as these I request that they give these figures their very careful attention. The figures hereto appended are but summary, and the full statement will appear in next week's issue of this paper."

"Our great trouble seems to be that we are trying to ape a city of 100,000 people rather than what we actually are. I am opposed to pretence where it costs our people money. Let's be just what we are—a small, but hopeful city, and want to be much greater than we are."

L. D. W.

Comparison of principal items of expense of operating city government:

	Richmond	San Bernardino
City Council	\$ 6,864 86	\$ 4,940 49
City Manager	7,284 91	None
City Clerk	6,729 49	6,907 57
City Auditor	6,199 42	4,896 91
City Treasurer	5,384 25	7,589 66
City Assessor and Tax Collector	13,688 96	None
City Attorney	7,982 61	5,484 08
Police Court	2,696 92	2,080 07
City Hall Exp.	6,282 45	3,317 20
City Planning Com.	393 75	917 92
*Police Dept.	72,607 37	50,734 94
*Fire Dept.	668 69	1,044 36
*Police and Fire Alarm System	14,999 04	None
Building Dept.	11,991 31	11,641 50
*City Funded	2,479 37	None
Health Dept.	10,413 65	5,672 45
Sanitation	4,860 00	2,018 40
City Engineer	29,307 61	34,329 19
Corporation Vd.	7,310 81	3,428 46
Charities	8,040 00	None
City Library	38,521 55	24,069 87
Park Dept.	19,647 22	20,087 68
Total	\$393,605 08	\$242,542 11

*San Bernardino—25 policemen.
*San Bernardino—27 firemen.
(To be continued)

The above is the first installment of these articles, and the following issues of The Terminal will contain the salary list of each department for comparison, giving comparative items from the San Bernardino report.

Don't miss this. It is a certified report, fully verified statistics.

Municipal Swimming Pool (Should Be) Financial Asset

The Richmond municipal natatorium was visited by 125,392 swimmers who paid admissions totaling \$48,682 during the fiscal year ending July 1, according to a report filed with the Richmond city council by City Manager J. A. McVittie.

The report for the month of June showed 13,728 paid admissions, with revenues totaling \$5395.95.

Mistake in Estimating: Sewer Bid Withdrawn

Contract for the inner harbor sewer to serve the industrial district was awarded Monday night to Jasper Stacey & Co. of San Francisco by Richmond city council, the bid being \$139,946.

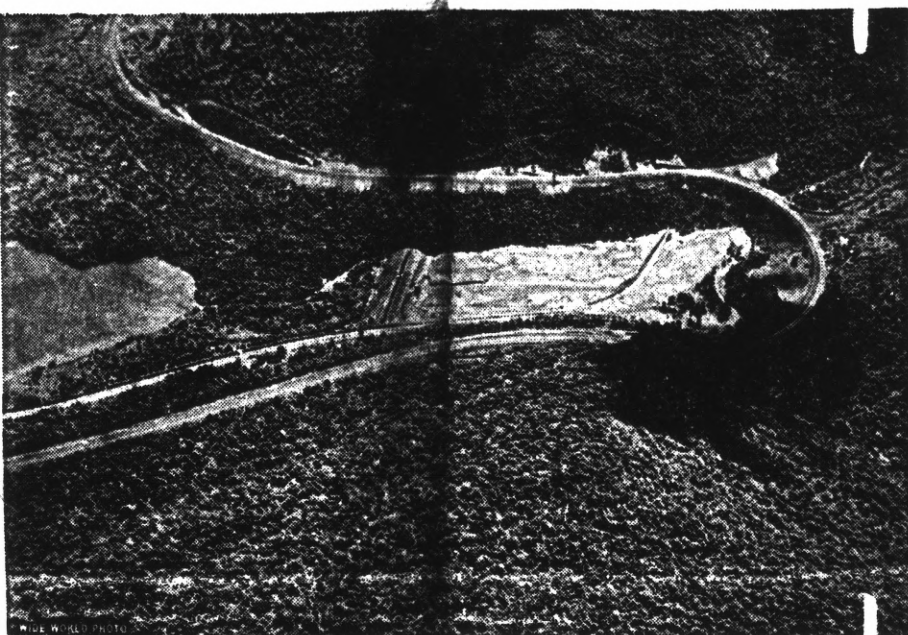

The San Diego company, the Miracle Co., were permitted to withdraw their bid of \$99,000, the bidder claiming mistake in estimating cost.

The Terminal is being read extensively by taxpayers. They are deeply interested in the overhead as compared with other cities.

The whine that the comparative figures giving cost of other California city governments, are garbled and misleading, is expected. The figures are taken verbatim from the official records. How can they be juggled without the juggler being caught? It can't be done.

It is announced that Mrs. Bert Curry will continue the business of her husband, retaining the same corps of assistants that were associated with him.

Famous Horseshoe Curve Seen From the Air

Here is a striking view of the Horseshoe curve near Altoona, Pa., as seen from an airplane.

Contra Costa County Greets Governor Young

Martinez, July 24.—Governor Young was given a fine reception here Tuesday night when people from all parts of the county gathered to welcome the governor and hear him discuss the issues of the campaign.

Dr. C. L. Abbott of Richmond, chairman of Contra Costa county campaign committee, presided at the meeting, and T. H. DeLap had charge of the delegation that met the governor at the county line and escorted him to the county seat.

The parade consisted of a long line of automobiles and motorcycles, headed by the Martinez band. The Martinez theatre where the demonstration was held, was well filled, 1200 being present in the audience, it is claimed.

Richmond Wins Freight Rate Cases

Richmond has been placed on the same basis as other cities on San Francisco bay on freight rates schedules, under a decision just handed down by the Interstate Commerce Commission in the case of the Southern Pacific company. The rates, which are intended to meet competition from steamship lines will abolish the 36 cent differential which existed between Richmond and other bay cities.

Miss Eshleman Now Editor

Miss Kathryn Eshleman, daughter of the late John M. Eshleman, has been made editor of the Daily Californian. She is the first woman to occupy the position and succeeds William Hudson as editor. Miss Eshleman has a staff of 20 reporters and sub-editors. Her father when at the university was a senior editor of the Californian and also editor of the Occident.

Legion Convention to Be Biggest in History

Sacramento, July 25.—Preparations for the biggest state convention in the history of the American Legion are being made for the convocation of world war veterans to meet here August 18-20, according to State Adjutant James K. Fisk who has been here checking over the arrangements being made for the yearly gathering of his organization.

"The American Legion has reached its greatest membership in California and the 55,000 members now in the various posts of the state are expected to attend the Sacramento convention in larger numbers than ever before," Fisk declares.

Salaries Fixed in Townships

Martinez, July 25.—The board of supervisors has fixed the population of townships in the county, and the justices of the peace and constables in each township. The salaries are based on population.

In the western part of the county, the salaries of the justice of the peace in Richmond and the justice and constable in San Pablo are increased.

Richmond is given a population of 20,087, which raises the salary of the justice of the peace to \$350 a month from \$200 a month. The salary of the constable remains at \$180.

In San Pablo the population was fixed at 3225, which increases the salary of the justice from \$50 to \$125 and that of the constable from \$96 to \$180.

El Cerrito has a population of 5303, with salaries remaining at \$2150 and \$180. Pinole and Rodeo with a population of 3225 will pay \$125 and \$180, the same as in the past.

RANDOM COMMENT

The world do move, according to a novel method of depositing your kale through a chute into the bank, where it automatically bounces into a burglar-proof place. But while you're doing it, keep a sharp eye for holdups.

It is claimed that if the tree sitting activities continue, it may be necessary for enlargement of the state's "nut factories," that adequate provision may be made for the increase in inmates.

There is considerable comment by young mothers whether the baby would wear a prize on his good looks.

Fresno is right up to date. Three tree sitters are in a hot contest there, and hot means real heat in Fresno.

According to our columnist around the bay district, Zoro Agha is well seasoned—and then some. He has cultivated three crops of teeth during his 156 years and has had twelve wives. This may be proof that Zoro's wives were good cooks, and that Zoro's longevity is due to the absence of the can opener in the kitchen.

San Jose Protests Against Interference With Firemen

San Jose, July 22.—Complaints from Fire Chief Plummer that autoists hinder fire department apparatus by failing to yield the right of way, has caused a wholesale arrest of drivers refusing to obey state laws and city ordinances governing their conduct while emergency vehicles are responding to alarms.

Special police squads have been detailed to respond to all fire alarms. Drivers who fail to stop for sirens, who follow fire apparatus closer than a block behind or who enter any block where fires are burning, will be cited to appear in court.

The report of Mrs. R. G. Lee, secretary of Richmond social service bureau, filed Monday night with the city council, as follows: No. of families given relief 215; garments distributed to the needy 7558; shoes 177 pairs; calls made by the organization 200.

The adjutant and Mrs. Malcolm Keene of the local Salvation army in Richmond have been transferred to Long Beach. They will be accompanied by Lieut. Lulu Carter, who will be their assistant.

All Bids On Ford Construction Work on Richmond Inner Harbor Rejected by Albert Kahn, Detroit Architect

(Special Correspondence).

Detroit, July 14.—New bids are being received by Architect Albert Kahn, of this city, all bids having been rejected for the construction of the Ford Motor Company assembly plant on the Richmond inner harbor at Richmond.

This work involves the construction of reinforced concrete, brick and steel frame buildings, dock, tanks, pipe lines, etc.

The total estimate cost of the construction work is estimated at \$2,500,000.

It would hardly require a pessimist to predict that Ford is "stalling," and that in view of the above statement Ford is getting "cold feet." It is believed that the contract will be awarded by the first of September, if not before that date.

Pacific Gas & Electric Company's Pay-Roll Has Increased This Year

Depression has not halted the building activities of the Pacific Gas and Electric Co. Its payroll is larger than it was a year ago. In May, the last month for which reports are available, the company's payroll was \$2,124,000, or \$520,000 more than for the same month in 1929. The number of employees was 14,242, an increase of 3761 over May, 1929.

"The payroll of this company for the year," said A. F. Hock-

enbeamer, president of the company, "will run in excess of \$25,000,000—more than \$2,000,000 a month for every month in the year. We have not halted a single undertaking in our program of building for the future. We are going right along with our dam, power houses and ditches on our Salt Springs project on the Mokelumne river and there will be no let up until it is finished in 1931 or 1932."

Passing of Bert Curry, Pioneer Undertaker

Bert Curry, 48, undertaker in Richmond the past 28 years, and former resident of Martinez, where he learned the mortician business in association with his brother, the late H. J. Curry, died at the Hospital Richmond Saturday morning after a brief illness. Curry was taken to the hospital less than a week ago suffering from pneumonia. His condition steadily became worse and the end came shortly before 2 o'clock Saturday.

Curry had been identified with the undertaking business in Richmond since 1902, when he and his brother Sam opened a mortuary and livery stable.

Curry was a native of Contra Costa county, having been born in the town of Clayton June 1, 1882. He is survived by his widow, Mrs. Henrietta Curry, 2361 Brooks avenue, and three children, Billie, Bert Jr., and Henrietta, and a brother, Rube Curry, of Berkeley, until recently a resident of Alhambra valley.

Funeral services were held from the Richmond Elks Club Tuesday, Charles Ryan in charge of the rites.

Petitions For Letters

Mrs. Bert Curry has petitioned for letters of administration in the estate of her late husband. Thos. M. Carlson is her attorney. The estate and personal property is valued at more than \$10,000, according to the petition. The widow and two children, Henrietta and Bert Jr., are named as heirs to the estate.

Amil J. Flores and Anna Gambucci of Richmond have applied for a marriage license in Oakland.

Telephone Saved Roscoe A. Beall's Life

Quick wit on the part of Miss Dorothy Reay, operator in an Oakland central office of The Pacific Telephone and Telegraph Co., is credited with saving the life of Roscoe A. Beall, deputy county assessor, according to word by local manager for the company.

Miss Reay sent police with an ambulance to Beall's residence, when the light from his telephone flashed on the switchboard, and she heard only moans in answer to her cheerful, "Number please."

Beall was found unconscious from accidental asphyxiation. He had crawled to the telephone and took down the receiver but collapsed before he could speak.

NEW DRY CHIEF

A. W. Woodcock of Salisbury, Md., new director of the bureau of prohibition in the Department of Justice.

The Policy of The RICHMOND TERMINAL Is to Make Richmond Safe For DEMOCRACY

CALIFORNIA NEWS REVIEW

Incorporation papers of Santa Barbara College, new private educational institution, were filed at the capitol.

Roseville will spend \$82,244 on her elementary schools next year, this sum having been approved by the board of education.

Working drawings are being prepared for the Winters School District for a one-story frame and stucco school, to cost about \$15,000.

A record catch for the season, 63,000 pounds, was brought recently by Humboldt's fishing fleet of seventy vessels. The former record catch was 55,000 pounds.

The Humboldt Board of Supervisors at Eureka awarded contract for paying thirty miles of highway to J. P. Holland Inc., of San Francisco, on a bid of \$45,000.

County Assessor L. L. Garrecht of Redding, closing the assessment rolls for the fiscal year, reports a total valuation in Shasta county of \$15,209,165, or \$120,000 more than last year.

Woodland's new grammar school, which will be opened in September, will be named the Beamer School, honoring Richard Beamer, Woodland pioneer, the board of education has decided.

Supervisors of Humboldt County were told by a committee of five land experts not to pay more than \$29,790 for the 100-acre Devo tract near Eureka. The land may be condemned by the supervisors for a county airport.

The Grand Avenue Mutual Water Company, Riverside, filed articles of incorporation with the secretary of state at Sacramento. The company is to supply water to its members on Riverside County lands. Directors named were Charles Lockard, Luther T. Clark and D. Gemmill of Riverside.

Long Beach, with a population of 100,000, has attained the unique distinction of being the only sizable city in the United States without train service. The last passenger train departed as the Union Pacific abandoned its service. The Southern Pacific discontinued its passenger service five years ago.

The Seaboard National Life Insurance Company of Long Beach filed articles of incorporation with the secretary of state recently. The company is to carry an authorized capital totaling \$500,000. Directors named were C. C. Lewis, W. F. Fisk, John Schinner, C. B. Gardner and Bruce Mason of Long Beach and F. E. Traak of Los Angeles.

That the once famous Jumper mine at Stent, Tuolumne County, will be reopened and developed, along with the Mazepa ground adjoining, is semi-officially admitted. San Francisco men have an option on the properties, and it is reported work will start at once. The Jumper mine paid over \$6,000,000 when worked. It has been closed many years.

The total valuation of property in Santa Clara County for 1930 is \$140,837,250, a gain of \$5,335,870 over last year, according to the complete assessment roll. San Jose shows a \$1,117,445 gain in assessment valuations over last year with a total of \$45,748,620. Other incorporated and unincorporated areas of the county each show gains of more than two million dollars.

With an increase of \$31,955,779, California ranked third in United States in value of exports for 1929, the Department of Commerce in Washington revealed. The State's exports were valued at \$377,392,437. Only New York and Texas surpassed California. Gasoline, valued at \$79,525,599, headed the list of products shipped from the State. It was followed by cotton, \$34,968,139; illuminating oil, \$23,152,026; gas and coal oil, \$18,860,375, and oranges, \$17,244,442.

There are more beauty specialists caring for the facial appearance of California women than there are qualified medical men looking after general health of the entire population. Maybe California's health-giving climate has something to do with it, but anyhow there are only 11,385 licensed physicians and surgeons in the State, whereas the licensees of the State Board of Cosmetology total 16,778. Other licensees include: Five thousand seven hundred and eighty-eight dentists, 1,351 optometrists, 2,669 chiropractors, 7,966 druggists, 1,400 embalmers, 530 funeral directors, 796 accountants and 1,227 architects.

A new power distributing station of the Lassen Electric Company is expected to be completed at Susanville early in August. The old station was destroyed in a disastrous blaze, which threatened the entire town sometime ago.

William E. Metzger, secretary of the San Joaquin Valley Chapter, Hotel Greeters of America, and the San Joaquin Valley Tourist and Travel Association, has been named a member of the national Greeters' board of governors.

Property values in San Jose totaled \$43,943,115 on July 1, according to Deputy County Assessor Hayden Pittman. This is a gain of \$933,628 over last year. The total property value in the incorporated towns of the county is \$68,181,250.

An aggregate of 29,399,000 feet of redwood lumber was shipped out of Eureka port during the past fiscal year, according to a report of H. F. McGrath, deputy U. S. collector of customs. More than 1,400,000 shingles were exported.

Miners around Nevada City are aroused over the discovery of rich gold ore on the properties of the Hoge Development Company three miles northeast of Nevada City. The strike was made near the 300-foot level, the ore body being an extension of the ledge encountered in an early prospect shaft.

Warning has been given by Capt. Sam Gilson of the State Fish and Game division that it is unlawful to pick up spotted fawns in the woods or along the highways. In former years the commission granted permission for taking fawns into captivity.

Articles of Incorporation of the Santa Monica Order of Elks of the United States were on file with Secretary of State Frank C. Jordan at Sacramento. Directors included D. C. Freeman, Santa Monica; James F. de Borde, Ocean Park; Thurlow Adams, Venice, and Thomas Robinson, Santa Monica.

Allotment of \$30,000 to the Sacramento-San Joaquin rivers system to complete studies to determine whether some barrier should be installed below the junction of the two rivers to prevent incursion of salt water into the delta area, was announced by the War Department. The allotment brings the total thus far for the studies to \$100,000.

Organization of a Chamber of Commerce has been completed at Woodland and fifteen members chosen as a board of directors. They are Dr. Fred Fairchild, Emil Kraft, A. C. Huston, A. T. Spencer, Harvey Bender, Frank Mossis, Don Huff, William Cornwell, J. W. Coons, K. T. Carter, George Atkins, C. L. Eddy, L. W. Scarlett, H. J. Bush and Kenneth Riffe.

Fifteen army engineers, under Maj. A. E. McKennett, have established headquarters at Kennet to survey the limit of the proposed Kennet Dam backwash. The proposed dam, 520 feet high, will back up the waters in the Sacramento River for thirty miles. The engineers' task is to run location surveys for the Southern Pacific above and below the dam. North of the dam the railroad will have to be located above high water in the artificial lake.

Loitering in Turlock parks between the hours of 1 and 5 o'clock in the morning is among the forbidden things included in the recently adopted ordinance governing conduct in city parks. During summer months the local parks have provided sleeping quarters for many who came to melons. With the new order in effect, out-of-doors quarters must be sought elsewhere.

Determined to reduce to the minimum losses caused by incendiaries and careless campers, Shasta National Forest officials have stationed a squad of five men in the Sacramento River Canyon, six miles south of Dunsmuir, for the season. Forest officials are completing plans for additional three fire lookouts in southern Shastas and northern Shasta counties. One will be located on Sugar Loaf, one on Pine Mountain and one on Mount Bradley, above Dunsmuir.

Investment and life insurance policies are safeguarded better in California than in any other state of the union. This is according to William J. Thinkler, chief state insurance examiner, who asserted: "California laws pertaining to investments are more strict than in any other state, particularly in regard to insuring stock. No company can operate here without a permit granted after a comprehensive check has been made of its financial status."

Highway contracts totaling \$1,110,970, and including improvement of the Bayshore highway, were awarded recently by Bert B. Meek, State director of public works. Low bids totaling \$558,741 for other highway and bridge projects were also announced. Basch Bros. Construction Company, Los Angeles, was given a \$402,982 contract for grading and paving 5.3 miles in San Mateo County between South San Francisco and Burlingame on the Bayshore route. This project was described as the final stage of the construction of that portion of the Bayshore highway.

Members of the Humboldt Glider Club named Carl Christiansen, pilot of the Humboldt flying service, as instructor for the organization, at Eureka.

Miniature golf courses may not be installed in residence districts in Turlock without consent of the majority of property owners in blocks where the courses are proposed, according to a measure adopted by the City Council. The new ordinance remodels a former one, in which the business districts of the city are outlined.

LIGHTS of NEW YORK

Errol Russell Ryder, the broker who spent millions on Broadway before he crashed, has, according to close friends, a most extraordinary and puzzling personality. They describe him as a man with a mixture of a delusion of grandeur, a kindness and a Robin Hood desire to aid the needy. Ryder never, in his spending, was of the loud-voiced aggressive type. Always courteous and gentle, he spoke in almost hushed tones.

"May I please have another good table tonight?" he would say to a head waiter, and then to a bus boy, "Will you see that all my guests have plenty of water?"

Then he might give the head waiter \$100, and the bus boy \$10. He knew the waiters in the places he frequented by name, knew their family history, asked concerning their wives and children. He always tipped lavishly, but if any of the waiters was in trouble, he would hand him a big enough bill to help him out.

Those who knew Ryder tell me he had a mania for helping persons financially. Waiters, taxi-drivers, musicians—he always has been fond of music—scrubwomen, actresses, chorus girls, any of them could get money from him if he thought that this gave him a reputation he didn't deserve; that he was no "one"; didn't especially care about women—unless they were broke. His beneficent, cathol-of-Bagdad complex started working immediately to demand his aid and protection for anyone who did not appear to have any money. It was his pleasure to fill their pockets.

All the night club workers are for him to the last man. Why not? Ryder is said to have spent over \$40,000 on Broadway in a month. Some few were grateful. One man sat in Ryder's office two hours to see him. When he finally did see him, he gave him a hand-made wooden cigarette case.

"I made this for you," he said. "It was the only way I could show my gratitude."

"Where did I see you and what did I ever do for you?" asked Ryder.

"Don't you remember me?" said the man. "I'm a waiter. One night you asked me about myself. I told you my wife was having a child and I had saved no money. I didn't know what to do. You gave me \$200. I cannot tell you how that helped."

Wherever Ryder got the money, he certainly spent it, and largely on others; although he did own half a dozen expensive cars and had a suite of seven rooms at an expensive country club, where he kept a couple of Japanese valets to wait on his guests.

But he visited humble places of entertainment. They say that one afternoon, in a small Greenwich Village restaurant, he heard and liked a male quartet.

"Why haven't you a piano?" he asked one of the villagers.

"We can't afford one," was the frank reply.

Ryder immediately called up one of the big piano concerns; told him he was; asked them to keep open until he arrived. When he got there he bought a piano which cost several thousand dollars, put it on a truck and had it delivered in Greenwich Village.

"Here is a piano," he said mildly to members of the quartet. "You sing well, but I like songs better with instrumental accompaniment."

On another occasion Ryder paid \$7,000 for a radio and a piano and gave them away. A taxi man he helped in Paris constituted himself Ryder's bodyguard. If he took another car, this driver would follow with his taxi, until such time as Ryder got safely back to his hotel. Ryder did everything in the grand manner, even offering any friend he was sending home a choice of several makes of cars.

Two Girls Burned to Death in Wrecked Auto

Columbus, N. J.—Trapped in roaring flames, Louise Perlingino, sixteen, and Lena Sabatino, twenty-two, both of Trenton, were burned to death when a car driven by Frank Palotta, also of Trenton, crashed into a glass gas tank outside a roadside service station near Grovesville last night. Gasoline sprayed from the broken tank and, striking the heated engine, burst into a blanket of flames which prevented would-be rescuers from reaching the imprisoned girls. Palotta, who was hurled through a window to the roadside, escaped uninjured. He was held on a technical charge of manslaughter pending investigation of the accident.

New Grave Discloses Overripe Egg Burial

Modesto, Calif.—Dave Bishop, tender of a bridge on the San Joaquin river not far from where three men were killed in cold blood April 28 by an itinerant laborer, found what looked like a new grave near the bridge. He hurried to a telephone and summoned deputy sheriffs. When the "grave" was opened it was found to contain several dozen incubator turkey eggs a farmer had buried after they reached a ripe old age without producing turkeys.

ICELAND WILL GET HEAT FROM SPRINGS

Pump Boiling Water to Keep Capital Warm.

Washington.—Iceland, the world's oldest republic, lying just south of the Arctic Circle, is preparing to heat its capital, Reykjavik, and at the same time provide power and amusement through the long winters with boiling water drawn from nearby hot springs.

Progress in this undertaking to a point where, next winter, the national hospital and a school will be heated and an indoor swimming pool will be established, utilizing the water after it has given up most of its heat, was reported to the Department of Commerce this week by North Winslip, Consul General at Reykjavik. He described it as the first step toward heating all of the capital.

The success of this undertaking provides a fresh explanation of the admiration which anthropologists and other students of human races and progress have long expressed for the Icelanders, who have retained in their isolation the splendid qualities displayed by their ancestors of 1,000 years ago in resisting oppression at home until hopelessly outnumbered and then sailing into unknown seas in flimsy ships to find a land where they could live in freedom.

Iceland was formed, after a fashion, much as the republic was formed, through a volcanic uprising in the earth's crust. That accounts for the abundance of hot springs there, providing water ranging from warm to boiling in temperature. Experiments looking to the use of this natural resource have been in progress for some years, and have shown very favorable results, Mr. Winslip reported.

First drillings were made two years ago by the Icelandic Engineering association at Wash Springs, about two miles from the capital. During the succeeding experiments the hot water was successfully used in heating a house, in cooking and washing and in warming the soil. Further investigation and experimentation are planned.

To Pipe Hot Water.

Under the plan for heating the capital a pumping plant will be constructed near Wash Springs. It will be built under ground, and the natural hot water will be conducted first to a large storage tank and then forced to the city through pipes carefully insulated to prevent escape of the heat. At the end of the pipe line a pressure regulator will be installed and connected with electric pumps to be operated according to requirements. The line will terminate in an air tank to assure an even flow. Construction of a storage tank in the city to take care of surplus water during the night, preventing waste and at the same time enhancing the effectiveness of the system, is contemplated early next year.

The pipe system in the buildings to be heated with the spring water, Mr. Winslip explained, will be installed in the usual manner, except that the radiators will be somewhat larger than ordinary.

California Town Bars Noisy Barnyard Colony

Burlingame, Calif.—The blatant crow of the rooster, the gabbling of geese and the coo of the pigeon have been officially muted by Burlingame's city fathers.

In solemn convocation, the city council enacted an ordinance muting the vocal utterances of fowls and other barnyard residents, curtailing their number and restricting their wanderings. Owners who permit their charges to moo, bleat, crow, cackle, warble or snort where such noise disturbs neighbors in their sleep or otherwise, are punishable by a fine of \$500 and six months in jail.

Flowers of 100 Sorts in Northernmost Alaska

Point Barrow, Alaska.—More than 100 varieties of wild flowers are in bloom in the tundra within a radius of 200 miles from here. Of these, iris and wild forget-me-nots are the most abundant. Of the many colors, yellow predominates.

Scientists are interested in the fact that white flowers bloom near dark backgrounds, dark reds and blues show blooms in the open spaces, while yellows are most numerous near water.

Umbrella Sentence

New York.—Joseph Latzo, husky iron worker, had to answer an intoxication charge twice. Magistrate Rudolph suspended sentence. Latzo's wife, however, decided to do her own sentencing. As he left court she attacked him vigorously with an umbrella.

Melons Soldiers Stole in 1898 Cost U. S. \$150

Washington, D. C.—The Senate passed a bill to pay \$150 to Warren C. Vesta, of Tampa, Fla., for watermelons stolen by American soldiers stationed near his watermelon patch during the Spanish-American war in 1898.

Vesta claimed \$1,000 damages, but an official investigation resulted in a report that \$150 would cover the damages.

BLIND 30 YEARS; REGAINS SIGHT

Chicago Man Marvels at Amazing World of Today.

Chicago.—A young man on his honeymoon was stricken with total blindness—thirty years ago.

One day recently, his vision suddenly restored, he sat bewildered by the side of the woman who for three decades had been his guide, his companion and his wife, and—until he closed his eyes again—she seemed unreal.

Three days before the man—J. F. Fish, 2428 North Sawyer avenue—sensed the beginning of the miracle that was coming to him.

He was in his own living room. His wife was there. The feeling he had was as if a black curtain before his eyes became less black at the lower edge and a misty gray border grew.

For some time he considered this without saying anything. Probably it was just an illusion, he thought. But the gray border widened. It became translucent—and then—transparent. He exclaimed:

"My dear, I believe—I really believe that I am beginning to see!"

She started up—then resumed her seat. Her pulses beat fast. But his was beating faster. He continued:

"There are vague shapes. The outline of a door—over there—a chair—is that your hand on the back of the chair?"

Swiftly the whole of the old black curtain seemed to be drawn aside, and the eyes behind the curtain—eyes which last had looked upon the world in the year 1900—saw the amazing world of today.

Mr. Fish is the head and founder of the Northwestern Business college. When students and teachers come to his office now he closes his eyes "in order to recognize them more readily"—because his eyes are better trained than his eyes.

The original loss of his vision was the result of a blow on the head. The restoration was time's slow healing of that injury.

Atlanta Children Fall Far Without Injury

Atlanta, Ga.—Atlanta's parents hope the city's record of long-distance noninjury falling records is ended.

Two-year-old James Chastain, Jr., started the competition with a 25-foot fall from the second-story window of his home. The next day James was a little sore in one hip but he was seen looking out of the same window from which he flopped the day before.

That record stood one day. Then Ruth Jansen, four, fell 34 feet out of an upstairs window into a rose bush which must have withdrawn its thorns, for she wasn't even scratched.

George Williams, adult titleholder, has completely recovered from a five-story fall down an elevator shaft which left him whole but somewhat bruised.

Later Mrs. Cora Hunter fell eight inches down one doorstep and fractured a wrist.

Woman Asks to Talk to Board as to Husband

Washington, N. C.—After an elderly woman demanded to discuss the issue in question with Beaufort county commissioners "one at a time," it was decided to defer action until August in the matter of continuing work of the county home demonstration agent.

Fifty women appeared before the board to urge retention of the agent's services.

The elderly woman took the floor. "Mr. Chairman," she said, "I ain't much for talking to a big bunch of men like this, but I sure can tell it to 'em one at a time. If you all are thinking of doing away with the home demonstration agent, I'd like to have the opportunity of seeing each member of the board by himself and talking to him like I been used to talking to my husband."

The commissioners lost no time in deferring action.

Prisoner Walks Out of Court as Officers Argue

Toronto, Ont.—Magistrate Jones and Inspector Guthrie differed in their interpretations of the laws regarding the legality of bright automobile headlights during Mrs. M. V. Molson's appearance in police court on a charge of driving with lights that were too bright. While they were arguing, Mrs. Molson walked out of the courtroom. The argument subsided when it was discovered that the defendant was gone.

Hair Cut by Lightning, He Feels "Pretty Good"

Excelsior Springs, Mo.—Fred Skelton, farmer, believes in plenty of fresh air and sleeps with his head near an open window. One night lightning shot through the screen and struck his pillow, tore it to fragments and took off all of his hair. After being unconscious for about an hour, the farmer came to and said he felt "pretty good."

Quebec Dog Carts to Go

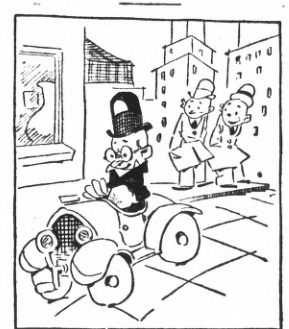

Quebec.—One of this province's most picturesque sights, the presence of small dog carts along the highways, has been condemned in the interests of the machine age.

SH-HI WHY BRING THAT UP?

"My husband and I were going out for dinner and I was supervising the children's meal before leaving. Betty Grace, aged four, scrambled into my customary place at the table and motioned her brother to his father's seat opposite. 'You be the papa and I'll be the mamma,' she proposed gaily. 'Imagine my astonishment and dismay at her next words, 'Now, let's argue!'"—G. K. P., in New Outlook.

KNOCK PREVENTIVE

"He says no one can speak slightly of his car."

"How come?"

"Because he uses no-knock gas."

Sacrificed Asset

Perhaps, if you destroy a foe, Your fortunes do not mend. If you an honest purpose show, He may become a friend.

Ahl News!

Next Door—Smith, I'm surprised to hear that your chickens have been over the wall scratching up my garden.

Neighbor—Surprised! That's odd. If your garden had come over the wall and scratched up my chickens I could have understood your astonishment.—Army and Navy Journal.

ROUGH NECK

"My boy friend gives me a pain in the neck."

"He always was a rough necker."

Poetic Terms

The poet has a file complete Upon his desk; And any girl who's not petite Is statuesque.

One of Those Comedies?

Blinks (leaving the picture show)—That was so rotten I'd like to go to the box office and demand my money back!

Jinks—Huh! I feel like insisting upon them paying me at least 10 bucks for having sat through the darn thing!

Stenographic Aid

"I've an invention at last that will mean a fortune!"

"What is it this time?"

"Why it's an extra key for a typewriter. When you don't know how to spell a word you hit that key, and it makes a blur that might be an 'a,' an 'n,' or almost anything else you like."

Put to Use

Teacher—Would you like to bring some of your father's old ties for the heathen missions?

Little Leroy—"Can't; my ma makes hooked rugs out of 'em."—Chicago Daily News.

The Coin Is Safe

"My little daughter has swallowed a gold sovereign and has got to be operated on. I wonder if Dr. Robinson is to be trusted?"

"Without a doubt. He's absolutely honest."

Cause and Effect

A misogynist said to a woman: "All this feminism is sheer nonsense. There isn't a woman alive who would not rather be beautiful than intelligent."

"That," said the woman, "is because so many men are stupid and so few blind."

Not Unusual

First Motorist—Where's the handle to this car door, anyhow?

Second Motorist—Under the ninth pennant from the rear.

A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has acidity completely checked and the digestive organs all tranquilized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating.

This pleasant preparation is just as good for children, too. Use it whenever coated tongue or fetid breath signals need of a sweeter. Physicians will tell you that every spoonful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same!

PHILLIPS Milk of Magnesia

FARM WOMAN BENEFITED

After Taking Lydia E. Pinkham's Vegetable Compound

Lickdale, Pa.—"Before I was married, my mother and sister and I did all the farming work on a 64-acre farm for eleven years. I married a farmer and now in addition to my housework and the care of my children I help him with the outside work on our farm. After my last child was born, I began to suffer as many women do. Finally our family doctor told me to try Lydia E. Pinkham's Vegetable Compound. I did and now I am a new woman and I know that good health is better than riches."—Mrs. CLYDE B. SHERMAN, R. 1, Lickdale, Pa.

Next time flies bother you don't sneeze. Just spray FLY FOIL a few times a day about the rooms—all the flies and mosquitoes disappear. Positive and lasting in its results. Not a poison. No Spilling. Mixing with new FLY-FOIL pouring nozzle.

"Right Place - Right Price"

TWO ART CAPITALS

Galleries and Gardens of the Zwinger, Dresden.

(Prepared by the National Geographic Society, Washington, D. C.)

TWO capitals of German states. Dresden in Saxony and Munich in Bavaria, are capitals, as well as of art, and annually draw their thousands of art-loving tourists. Dresden is filled with artistic wonders. Its picturesque setting, astride a beautiful bend in the Elbe river, about 110 miles south of Berlin, caused Herder, the poet, to call it the Florence of the Elbe.

From an approaching river steamer, the Saxon capital is a city of graceful spires and huge domes and cupolas, but inside the Altstadt (old city) on the left bank of the Elbe, the picture changes to one of artistically embellished buildings, handsomely sculptured monuments, galleries of famous paintings, numerous museums with choice collections of all sorts, spacious squares and parkways, and canyonic streets where Kunst (German for "art") is heard among the throngs nearly as often as some of the common words.

A large portion of the Altstadt lies near the Augustus bridge, one of the five spans that connect the old town with Neustadt, on the other bank of the river. The Hof-Kirche, facing the bridge with its 272-foot tower, is a huge structure, whose parapets are topped with 59 statues of saints and, inside, Raphael Menges' "Ascension" looks down upon the high altar. A covered passage connects the church with the old Saxon palace, whose walls are decorated with fine mural paintings; and in the various rooms, large collections of Chinese vases and Dresden china are on display. Even the stable adjoining the palace is embellished with a cavalcade of Saxon princes, in porcelain tiles.

Treasures in Many Buildings.

Within a few blocks of the palace numerous buildings contain the collections that have made Dresden famous as the German art center. Between the church and the palace the Grunes Gewolbe (Green Vault) contains a dazzling array of jewels—diamonds, rubies and sapphires—and works of art in gold, ivory, bronze and Limoges enamels. On a single ivory tusk one artist has carved 142 angels and another ivory piece depicts an organ grinder fighting a robber. The Saxon crown jewels, a 40-carat green diamond, jeweled trinkets of all kinds, a golden tea service and the largest known onyx are displayed. Bronze work includes statues, pedestals and vases. A striking bronze piece depicts Charles II of England fighting off a dragon.

Across the street, surrounded by gardens, the Zwinger, built by Augustus the Strong and intended, to house banquet and dance halls, promenades and gardens befitting royal life of the eighteenth century, is a treasure of art. The building is a fine example of Italian Renaissance, adorned with figures of Greek deities, vases and flowers. Once in the court which the Zwinger incloses, the traveler feels that the rose gardens and promenades should fulfill the most regal whim.

The Zwinger museum contains a half million engravings, many drawings, mathematical instruments, and a picture gallery where some of the finest works of the most eminent Italian, Spanish, Dutch and German artists are on exhibition. Raphael's "Sistine Madonna" occupies a prominent place in the collection. It was purchased in 1754 from Italian monks and smuggled out of Italy by painting a landscape over the canvas. There are also works of Rubens, Van Dyck, Rembrandt and others.

The Johanneum museum, formerly stable buildings, contains an interesting collection of war material and more than 20,000 pieces of Chinese, Japanese and Dresden porcelain, and Italian majolica, a glazed pottery.

The Albertinum, once an arsenal, now is a sculpture museum with many historical and modern pieces. Delicately painted limestone reliefs dating back to 2800 B. C. are displayed there, while a mummy still reposes in a coffin. It has occupied more than 2,500 years.

Collections and Churches.

These and numerous other exhibit places, including the Municipal museum with a fine collection of etchings; the Academy of Art; the School; and Museum of Industrial Art; the Zoological and Ethnographical museum,

containing a large collection of stuffed birds and ethnological specimens; the Mineralogical and Prehistoric museum with interesting fossils; draw art lovers from all parts of the world and earn for Dresden the right to be called one of the world's important art centers.

Among the churches the Frauen-Kirche, a Protestant edifice, is the largest. It can accommodate 5,000 worshippers. The church occupies a whole city block. The lantern above its huge dome is 312 feet from the pavement. A magnificent organ and numerous statues are interesting features of its interior.

Between trips to this almost endless array of exhibits, travelers enjoy the Dresden parks and drives. Grosser Garten is nearly half as large as Central Park in New York City. Within its confines are zoological and botanical gardens and the Museum of the Saxon Antiquarian Society, where there are 3,000 objects in porcelain, pewter and carved wood.

In Neustadt, across the river, the Japanese palace, so called from the Japanese porcelain collection it once contained, now houses the Saxon State Library with more than a half million volumes and thousands of manuscripts and maps. Dresden's market place is also in Neustadt, and houses to accommodate many of the city's 620,000 inhabitants.

In point of population Munich (Munich) is exceeded only by Berlin and Hamburg among German cities. With 480,000 inhabitants it is somewhat larger than San Francisco and smaller than Boston.

Munich is Magnificent.

In physical aspects Munich is one of the most impressive of modern cities. Its royal palaces, its magnificent national theater, its great royal library containing 1,100,000 volumes and 50,000 rare manuscripts; its broad thoroughfares, particularly the Ludwigstrasse and Maximilianstrasse, bordered by the great office buildings of the Bavarian government, and its famous university which ranks first among the German institutions of learning in the number of its medical students and second only to Berlin in all these and many other buildings and institutions make the municipality one of the chief prizes of the Teutonic people.

Most of the modern improvements and practically all of its architectural splendor Munich owes to Louis (or Ludwig) I and his art-loving successors. Louis came to the throne in 1825 and ruled for more than 20 years. One of the impressive monuments of his reign is the beautiful Propylaea, modeled after the gate to the Athenian Acropolis, and the reliefs which decorate this structure quite fittingly tell the story of Greece's war of independence and the events transpiring in that kingdom during the eventful reign of King Otto I. Louis's son who was elected to the throne of Greece in 1832 but was finally expelled after 30 years. Another beautiful Munich gateway is the Siegestor (Gate of Victory), modeled after the Arch of Constantine in Rome.

One Munich gallery exhibits such works as Titian's "Christ Crowned with Thorns," Rembrandt's "The Descent from the Cross" and a Raphael "Madonna," and contains works of Rubens, Van Dyck, Holbein the Elder, Perugino, Botticelli and Fra Filippo Lippi, from which it will be seen that Louis did not hesitate to acquire the masterpieces of other nations.

Louis II saw Bavaria gradually absorbed in the Empire, but, before madness drove him to suicide, he furthered the art development begun by his grandfather. His reign was notable for his encouragement of Wagner's development of the music drama, and to his royal generosity, which would add more to his fame had it not been for the oppressive taxation it imposed and its later excesses, were due the Bayreuth productions.

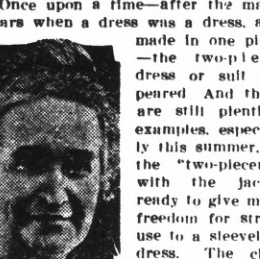

Its Commerce and Science.

The commercial life of Munich is scarcely less interesting than its artistic side. In America the name of the city was once indelibly associated with its most important article of export, beer. In scientific circles Munich's optical and mathematical instruments have a world-wide reputation; while the art of lithography had its birth there.

Dame Fashion Smiles

By Grace Jewett Austin

Once upon a time—after the many years when a dress was a dress, and made in one piece—

Grace J. Austin.

The three-piece suit is not at all unusual. This generally includes a skirt, blouse and jacket, and since in this type the mid-piece, or blouse, may be interchangeable, a half dozen effects are possible with the three-piece possession. Not infrequently the "four-piece ensemble" is brought to women's notice. In this case the fourth piece is a matching but separable scarf of the same material; often of tweed.

Keeping on with these "little inducements" as the old song went, the five-piece ensemble is not at all difficult to obtain, when a beret or hat of some type is made from the matching material. Ensemble six is not impossible, when shoes to match are made. Dame Fashion remembers back in the days of high shoes when a bride on a pullman—an entire stranger, in the casual acquaintance of a long trip, pulled up her floor-length skirt to show "bottle-green" high-buttoned shoes, matching her dress and evidently quite the joy and pride of her outfit.

A seven-piece effect would be gained if the handbag matched the shoes—but there must be no "ten little Indians!" Even six and seven will bring a risk of monotony, for such an outfit would have to depend on hat-trimming and costume jewelry to bring the needed color relief.

But suppose this seven-piece outfit had been chosen in this season's favorite sunny buttercup gold color, which for some occult reason proves to be quite universally becoming, the effect would be uncommonly joyous; especially with a background of rolling greens of golf courses. White accessories or black are both good with golden suits; the latter, of course, being far more pronounced in effect.

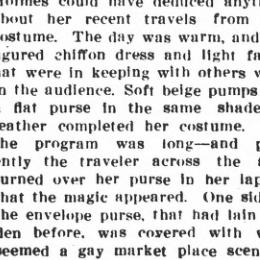

And an amber necklace, even if not of a greatly differing shade, gives good "puncturation."

Just the other day Dame Fashion thought she saw a good example of the pleasure that may come from accessories, even outside of their artistic value in costume effect. Just across the aisle from her at a patriotic gathering sat a woman recently returned from several months of Oriental touring. At first glimpse, no Sherlock Holmes could have deduced anything about her recent travels from her costume. The day was warm, and her figured chiffon dress and light fabric hat were in keeping with others worn in the audience. Soft beige pumps and a flat purse in the same shade of leather completed her costume. But the program was long—and presently the traveler across the aisle turned over her purse in her lap, so that the magic appeared. One side of the envelope purse, that had lain hidden before, was covered with what seemed a gay market place scene in the Orient.

There is a bit of tourist advice in this story. A wise man once told Dame Fashion, "Whenever you travel, try to replace objects of common use to you with others from interesting spots. Then you will have constant reminders." And luckily, one does not have to journey to China to do this.

(© 1929, Western Newspaper Union.)

Becoming Neckline, Cap Sleeves Add to Dress

Among the fashions from Filmland is this chic pink satin evening dress which has a becoming neckline and cap sleeves which add youthful expression. The flowers are of self fabric in deep rose and mulberry shades.

Tempting Combination for Charming Ensemble

Crisp pique and embroidered voile are a tempting combination for a small ensemble that includes a cape wrap, a smocked dress and a cloche hat. The dress is fine embroidered voile and the wrap is pique, while the little hat combines the two. With capes cut in one with the front and back sections the wrap is quickly made and follows the last word in fashion. The neck is simply faced on the right side and the capes are bound. The little cloche comes apart for washing since the crown is made to snap onto the ribbon headband of the brim. Dart fitted to a little circular piece at back the crown fits easily.—Woman's Home Companion.

What's your husband trying to invent now?" asked the neighbor. "An anti-skid soap that you can step on in the bathtub without taking a flop," sighed the wife.

A man who loves his work needs a vacation, sometimes. He will come back to it promptly enough.

Be Boon to Mankind

What's your husband trying to invent now?" asked the neighbor. "An anti-skid soap that you can step on in the bathtub without taking a flop," sighed the wife.

A man who loves his work needs a vacation, sometimes. He will come back to it promptly enough.

Satin Shoes in Fashion; Real Gems for Evening

American women learned to choose their accessories with the greatest care in the days when dresses were short and simple and sometimes little more than a background for these important trifles. Now that frocks, and especially evening frocks, incline to elegance, observes a fashion writer in the New York Times, they know the matter of accessories demands no less discrimination. They would avoid the too obvious; they would achieve the effect that looks as though it just happened to be right, without having been thought about particularly. Which, of course, needs a deal of thinking.

The shoes are of first importance in the evening ensemble. Many that are new in cut and trimming invite your attention, and some of them are charming, but you cannot possibly go wrong if you stick to the plain opera pump in crepe, satin or brocade. (Yes, satin is back.) They are smart when dyed to match some other detail in the costume—perhaps a wrap, a bag, or a necklace. With a white dress, a bright tone such as red, green or blue is still liked, unless one prefers one of the handsome new combinations of antique ivory brocade and gold kid or silver.

Long, brown, suede gloves and brown shoes with a brilliant ornament accompanied an ultra-chic dinner costume of printed chiffon in tones of beige and brown.

There is little change in hostelry, save that the deep sun-tan tones are no longer fashionable with white. Costume jewelry for evening has come to mean something more than colored glass trinkets. At the moment, real gems are preferred by women who may afford them, and old-fashioned jewels are given fine settings, some in modern manner. Opals are used in bracelets, pendants, rings that hold a single large stone and in the back of a large ring framed in diamonds. Onyx is effectively combined with cut crystal in necklaces and bracelets. Aquamarines in large stones with diamond setting are used in a pendant on a slender chain. The vogue of jeweled clips is unabated, and beautiful new designs are shown in colored stones and diamonds.

Parasol Cover Matches the Frock Milady Wears

Women who desire an umbrella harmonizing with their frocks, yet capable of turning a sudden shower, now may obtain a combination parasol and umbrella, says Popular Mechanics Magazine. It has two covers, the outer one detachable. The under cover is of regulation water-resisting material, while the outer one may be made of bright colors to match a dress, as it is quickly detached in case of a shower.

Fur Cravat One Smart Accessory for Coat

Whether you prefer the perky bow of a cravat scarf or the sleek silkiness of fur or even if you wish to wear the cape collar of your print frock outside your coat, the collarless cravat offers you your choice. It is a fashion that has invaded the suit made with the vogue for cape collars and frilled lingerie touches. It is a newcomer in the realm of coats. The fur cravat is a smart accessory for this type of wrap.

Strategists Plan for Large Scale Inundation

The story of how the Dutch, in the days of the prince of Orange, opened the dikes and flooded the country to drive off the Spanish invaders is well known. The story of how the Allies did the same in this last war to hold back the Germans for a few precious weeks is also well known. Now the French ministry of war plans to make inundation a regular part of their defense at the north.

Before, when the dikes have been opened, it was only as a last resort, because land flooded by salt water is rendered sterile for years, so that only the greatest necessity would force the French to open the gates to the seas.

However, they plan to build a line of dikes and levees that will permit mixing salt water with fresh water, so that the land will be fit for cultivation sooner.

This new system would allow flooding the land at any time and in a very short period of time. Army maneuvers this fall will include manipulation of the existing locks.

Blind People in Protest

About 5,000 people who carried posters they could not read, walked slowly along the main street of The Hague, Holland, recently. Wherever they passed, laughter died, and spectators were surprised by the odd spectacle. Those 5,000 persons were blind. "We, too, want our place in society," read one of the posters; and another, "Compulsory schooling for the blind child." The blind members of the Work for Invalids association wished to stir the public and the government into action on various bills that are to provide for blind persons in Holland.

Pay Claim With Car

Little Falls, N. Y.—Philip Goaf, of New York, was unable to settle in cash for damages caused when his automobile collided with another driven by Earl Vetter, of Chester-town, so he gave Vetter his automobile.

When BABIES are upset

Baby ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea—a condition it is always important to check quickly. How would you meet this emergency—tonight? Have you a bottle of Castoria ready? There is nothing that can take the place of this harmless but effective remedy for children; nothing that acts quite the same, or has quite the same comforting effect on them.

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria; the genuine bears Chas. H. Fletcher's signature on the wrapper.

HEADACHES

Needless pains like headaches are immediately relieved by Bayer Aspirin as millions of people know. And no matter how suddenly a headache may come, one can at all times be prepared. Carry the pocket tin of Bayer Aspirin with you. Keep the larger size at home. Read the proven directions for pain, headaches, neuralgia, etc.

Little Falls, N. Y.—Philip Goaf, of New York, was unable to settle in cash for damages caused when his automobile collided with another driven by Earl Vetter, of Chester-town, so he gave Vetter his automobile.

When BABIES are upset

Baby ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea—a condition it is always important to check quickly. How would you meet this emergency—tonight? Have you a bottle of Castoria ready? There is nothing that can take the place of this harmless but effective remedy for children; nothing that acts quite the same, or has quite the same comforting effect on them.

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria; the genuine bears Chas. H. Fletcher's signature on the wrapper.

Acknowledged as a protection against Skin Troubles

Progress of Babies

Once upon a time the first words of the baby learned to say were papa and mamma, but now the first words the baby learns to say are: "Where's papa?" and "Where's mamma?"—Life.

Wild Pigeons Hurt Crops

Bakersfield, Calif.—Thousands of pigeons, identified by local people as "wild pigeons," are migrating from the high mountains and damaging ranches in the Arvin and Weed Patch districts.

"90% OF TYPHOID in Rural Districts Is Carried by Flies"

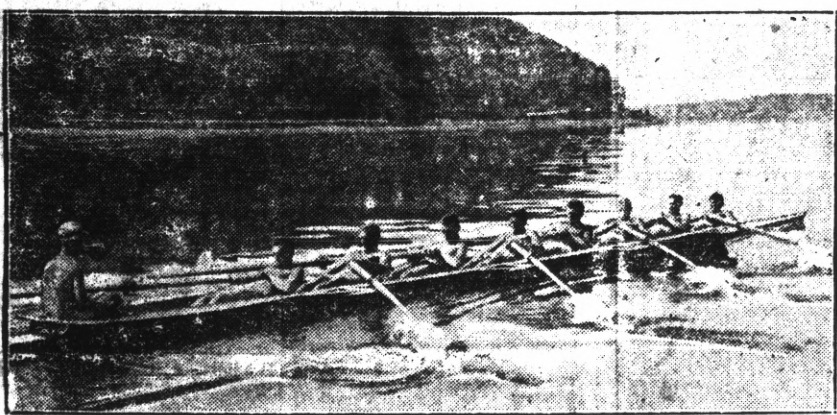

Says The Georgia Medical Association

WHEN a child comes down in your home with typhoid fever, from which over 8,000 people die every year, it is very possible that the cause of this disease is the apparently harmless common house fly. He buzzes in when the screen door is open, lights for a moment on your dining room table, and may leave on your food a dangerous disease germ—for he carries 6 million germs on his hairy, furry body. What are you going to do about this danger? Be comfortable and safe. Keep your home insect-free. Spray Flit, which is guaranteed (or money back) to be quick-death to flies, mosquitoes, moths, roaches, bedbugs and other household insects. Yet its clean-smelling vapor is harmless to humans. Flit kills quicker if you use the special inexpensive Flit Sprayer. Insist on Flit and don't accept a substitute. Get yours this very day!

The World's Largest Selling Insect Killer

IT'S THE TRAINING TABLE THAT SETS THE STROKE

By Richard Glendon, Jr.
(Coach of the Columbia University
Crew Inter-Collegiate Champions,
1929)

IN the old days, when a coach was looking around for a place to locate his training camp, he usually spotted a hotel or boarding house that specialized in corned beef and cabbage, for corned beef and cabbage was the *me plus ultra* of training fare in the "dear and fortunate days." And yet, while the men stowed away as much of Jiggs' favorite dish as they could, they were allowed only a limited quantity of water. The idea, then, seemed to be to "starve" them, and then bring them to a keen competitive edge quickly through sweat and lots of purgatives. Needless to say the after results were anything but desirable.

Today a coach goes about bringing his men into shape in just the opposite fashion. I always start the men as early as possible, so that there will be no need for last minute, intensive grinding to bring them to the "edge." The more gradually a man can build up his stamina and drive, the more effective he will be and the less apt to go stale. Balanced against the necessary meat in our crew diet is always an impressive assortment of leafy and fibrous vegetables, the cellulose or bulk of which promotes intestinal hygiene and helps carry off the residual poisons in a normal and healthy manner. This same "veg-

No coach of any sport has ever rocketed into a deserved place of such nation-wide prominence in such a short time as has "Dick" Glendon. Son of an illustrious father who has guided Navy crews to so many stirring victories in past years, the younger Glendon after temporarily replacing his father at the Naval Academy, came to Columbia just four years ago. In those four years he has completely rejuvenated rowing at Columbia, his freshmen winning in 1926 and his varsity team in 1927 and 1928. Realizing the supreme importance of conditioning in such a grueling race as the 4 mile race at Poughkeepsie, we have asked Mr. Glendon to tell us something of the training requirements imposed on a crewman, particularly in regard to what he may and may not eat.

—EDITOR.

stable effect" is achieved, also, through use of certain cereals such as rice, bran, and corn. Whole rice is especially ideal in that it is not only highly palatable, but also forms a bulk whose smooth texture is kind to the tenderest of lining membranes. When the first call for crew is made, early in the year, I find the men in all sorts of conditions. There are always a few conscientious ones—would that their number were larger—who report in excellent condition; but there are others who have to start from scratch every year. These men I watch with particular care to see that their physical grooming

keeps pace with the early spring workouts. Nothing whips such men into shape more quickly or more effectively than a diet which keeps appetite at a keen edge and works off, sanely and normally, the residues collected during the athlete's lay-off period of inactivity.

When eight men swing their shell in line for the 4 mile grind at Poughkeepsie, these men should be carrying in their stomachs nothing but energy supplying foods. They will call upon—and need—every ounce of reserve they can carry before they pass the finish marker. Naturally, the men in the best condition to meet this exacting demand upon energy are those whose training has removed from the body all the dead weight and useless residues.

One hears a great deal of talk about the stroke used by this or that crew. Naturally, each coach teaches his men the stroke which he believes, through experience, will be most apt to drive his colors out in front and keep them there. But no type of stroke in the world is worth a plucked chicken, if the men manning the oars have not been properly conditioned to see a winning pace and then have the stamina and reserve energy to hold it.

A sensible diet then, which includes plenty of roughage, cellulose or bulk (choose your own name for it) is as necessary in the long training grind, as the actual work-outs in the racing shells, for a crew man needs every ounce of usable foods that he can store in his body. When the coxswain increases the beat for the final spurt, it takes a perfectly trained human machine to stand the race.

The policy of THE TERMINAL is to make Richmond safe for democracy.

Real Estate Investor Must Wait for Profit
Real estate, like growing things, requires a certain period of time to mature as an investment. The length of this time varies with the location, with the development activities in the surrounding area, and the honesty, the seriousness of purpose and the financial ability of the developer.
While the completion of a new highway or transportation line will greatly accelerate this maturity and thus reduce the logical term for the investment, it is very apt to be followed by a period of repose and, in the long run, the maturing process is practically stalled.
It is much like the forcing of plant life. The harvest may be artificially hastened, but at the cost of plant vitality, and the plant or tree requires the remainder of the growing season to recover from the experience.

Beautify the Home Place
Many realtors say that the right kind of planting and gardening adds to the financial value of property at least 20 per cent.
Amateur gardeners, however, must be careful to lay their plans skillfully lest the effect be marred and the value all lost, it is pointed out.
The landscape problems of the small home owner of course vary greatly from those of the man with a large estate.

The latter may go in for formality and elaborate effects while the man who has to deal with limited space will find his planting must serve a two-fold purpose; that of being useful as well as ornamental.
Making House a Home
The house is the center of the little portion of the earth's surface we call home. To it lead the drives and paths; around it fit the lawns and gardens that mean so much to the hours of our recreation and delight. To make the surroundings a picture of "harmony," is to make the house truly a home. "Does your front entrance," a guest pronounced, "picture have that air of both welcome and dignity so much desired? Are those paths and drives bordered with evergreen hedges as well as your rose and perennial gardens? If so, you are fortunate, indeed, but remember, to place should be considered complete until the patriarch of the evergreen tribe, the specimen box, is planted.—Exchange.

Scouts to Plant Trees
Boy Scouts of Cannabrigua, N. Y., have contracted to plant 3,000 trees this summer as part of the Ontario county reforestation project.
NOTICE TO VOTERS
Every person entitled thereto must register during the year 1929, thirty (30) days before election at which he or she may desire to vote.
Registration for August Primary Election closes July 25, 1930.
Registration for General Election closes October 4, 1930.
Make application for Registration to the County Clerk or any of his deputies.
J. H. WELLS, County Clerk,
County of Contra Costa, California,

LEGAL NOTICES

SUMMONS

In the Superior Court of the State of California, in and for the County of Contra Costa.
Olive Gnecco, Plaintiff, vs. Chas. C. Jensen, A. V. Schmitt, W. E. Griffiths, A. Wilson, C. A. Meyer, Luke Clavinovich, V. C. Hammeeschlag, George F. Hilton, Edwin Ambrose Devoreux, Irma Bowen, Wallace E. Miller and Helen Miller, his wife, George W. Rowe, W. E. Williams, Gerrit Jan Moll, Justina Breckenkamp, Alwilda L. Hammeeschlag, John Layton, E. D. Dunbar and Ethel L. Dunbar, his wife, Edith Steg, W. J. Benson Company, a corporation, and also all persons unknown who have or claim any interest in or lien upon the real property hereinafter described, or any part thereof.
Action brought in the Superior Court of the State of California, in and for the County of Contra Costa, and a complaint filed in the office of the County Clerk of said county: D. HORNER, Richmond, California, Attorney for Plaintiff.

People of the State of California Send Greeting to:
Chas. C. Jensen, A. V. Schmitt, W. E. Griffiths, R. A. Wilson, C. A. Meyer, Luke Clavinovich, V. C. Hammeeschlag, George F. Hilton, Edwin Ambrose Devoreux, Irma Bowen, Wallace E. Miller and Helen Miller, his wife, George W. Rowe, W. E. Williams, Gerrit Jan Moll, Justina Breckenkamp, Alwilda L. Hammeeschlag, John Layton, E. D. Dunbar and Ethel L. Dunbar, his wife, Edith Steg, W. J. Benson Company, a corporation, and also all persons unknown who have or claim any interest in or lien upon the real property hereinafter described, or any part thereof.
You are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Contra Costa, within ten days after the service of this summons—if served within this County; or within thirty days if served elsewhere.
You are further notified that the object of said action is to secure a partition of the real property hereinafter described according to the respective rights of the parties thereto, and for a sale of such property, or a part thereof, if it appears that a partition cannot be made without great prejudice to the owners.
Said action is brought in accordance with the provisions of Part II, Title X, Chapter IV of the Code of Civil Procedure of the State of California, and the real property sought to be partitioned is particularly described as follows, to-wit:

PARCEL ONE
That parcel of land in the County of Contra Costa, State of California, described as follows:
Lot 16 in Block 71 as designated on the map entitled "Map of North Richmond Land and Ferry Company Tract No. 1 Fronting Southern Pacific Station on Main Line Adjoining the City of Richmond on the North, Contra Costa County" which map was filed in the office of the Recorder of the County of Contra Costa, State of California, on July 11, 1910, in Volume 3 of Maps, at page 22.
Those parcels of land in the City of El Cerrito, County of Contra Costa, State of California, described as follows:

PARCEL TWO
Lot 5 in Block 2 as designated on the map entitled "Complete Map of Bay View Park, Contra Costa Co., Cal." which map was filed in the office of the Recorder of the County of Contra Costa, State of California, on April 4, 1905 in Volume D of Maps, at page 88.
Lot 4 and the north 1/4 of Lot 10 in Block 2 as designated on the map entitled "Complete Map of Bay View Park, Contra Costa Co., Cal." which map was filed in the office of the Recorder of the County of Contra Costa, State of California, on April 4, 1905 in Volume D of Maps, at page 88.

PARCEL THREE
Lots 46 and 47 in Block 14 as designated on the map entitled "Complete Map of Bay View Park, Contra Costa Co., Cal." which map was filed in the office of the Recorder of the County of Contra Costa, State of California, on April 4, 1905 in Volume D of Maps, at page 88.
PARCEL FOUR
Lots 4 and 5 in Block 25 as designated on the map entitled "Map of Bay View Park, Contra Costa Co., Cal." which map was filed in the office of the Recorder of the County of Contra Costa, State of California, on April 4, 1905 in Volume D of Maps, at page 88.
PARCEL FIVE
Lots 2 and 3 in Block 14 as designated on the map entitled "Complete Map of Bay View Park, Contra Costa Co., Cal." which map was filed in the office of the Recorder of the County of Contra Costa, State of California, on April 4, 1905 in Volume D of Maps, at page 88.
PARCEL SIX
Lot 53 in Block 4 as designated on the map entitled "Complete Map of Bay View Park, Contra Costa Co., Cal." which map was filed in the office of the Recorder of the County of Contra Costa, State of California, on April 4, 1905 in Volume D of Maps, at page 88.
PARCEL SEVEN
Lot 21 in Block 5 as designated on the map entitled "Complete Map of Bay View Park, Contra Costa Co., Cal." which map was filed in the office of the Recorder of the County of Contra Costa, State of California, on April 4, 1905 in Volume D of Maps, at page 88.
PARCEL EIGHT
Lot 5 in Block 8 as designated on the map entitled "Complete Map of Bay View Park, Contra Costa Co., Cal." which map was filed in the office of the Recorder of the County of Contra Costa, State of California, on April 4, 1905 in Volume D of Maps, at page 88.
PARCEL NINE
Lots 2 and 3 in Block 14 as designated on the map entitled "Complete Map of Bay View Park, Contra Costa Co., Cal." which map was filed in the office of the Recorder of the County of Contra Costa, State of California, on April 4, 1905 in Volume D of Maps, at page 88.
PARCEL TEN
Lots 11 and 12 in Block 15 as designated on the map entitled "Complete Map of Bay View Park, Contra Costa Co., Cal." which map was filed in the office of the Recorder of the County of Contra Costa, State of California, on April 4, 1905 in Volume D of Maps, at page 88.
PARCEL ELEVEN
The westerly portion of Lot 1-C in Block 7 as designated on the map entitled "Official Map of the Town of Stege, Contra Costa County, Cal." which map was filed in the office of the Recorder of the County of Contra Costa, State of California, on January 22, 1904 in Volume 267 of Deeds, at page 400, which parcel bears south 87° 05' east along the south line of Potrero Avenue 171.53 feet from the east line of Potrero Avenue (formerly Oak Avenue); thence from said point of beginning south 87° 05' east along the south line of Potrero Avenue 171.53 feet to the south line of Potrero Avenue; thence from the south line of Potrero Avenue 171.53 feet to the point of beginning.
Together, with all and singular the tenements, hereditaments, and appurtenances thereto belonging, or in any wise appertaining, and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.
And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract or will apply to the court for any other relief demanded in the complaint.
Given under my hand and the Seal of said Superior Court in and for the County of Contra Costa, State of California, this 17th day of February, 1930.
(Seal)
J. H. WELLS, Jr.,
(Superior Court)
By L. R. Geer,
Deputy Clerk,
C. D. Horner, Attorney, Plaintiff,

PREPAREDNESS IN BUSINESS

By R. S. HECHT,
American Bankers Association.

My observations for many years, as an employee and as an executive, have convinced me that the reason some men and women go ahead and others do not is that some keep themselves constantly prepared to accept and fulfill larger duties and responsibilities as they offer, and some do not.

Grant, as we must, that there is a certain element of luck in the conditions under which opportunity for promotion comes to different men and women. We nevertheless must also see that it is each individual's own state of preparedness which determines his ability to seize opportunity if and when it comes, and having seized it, to succeed in meeting the greater demands which it inevitably places upon him.

Real advancement never means going ahead to easier tasks, but always to harder ones. Opportunity for advancement is worthless unless in accepting it you are able to carry with you the abilities and qualifications that prepare you to meet the heavier exactions that are an inherent part of opportunity.

It is far better to go into action in the field of enlarged responsibility prepared and qualified, rather than that you and the institution you work for shall be exposed to the hazard of your having to build up to new responsibilities after having assumed them.

The new spirit of all business seeks to prepare its people in advance through education for the higher duties it holds in store for them.

Big Rural Fire Losses

More than 3,500 lives a year are part of the annual toll collected by fire in the rural and small-town communities of the United States. It is estimated that the average loss to farmers amounts to about \$400,000 a year, and of this amount one-third occurs on farms and in small towns of 2,500 or less population. The figures are indicative of the need for better fire prevention and fire protection in the rural sections.

RATES REDUCED FOR CALLS TO EUROPEAN POINTS

Increase in Use Makes Second Reduction in Three Years Possible

The rate on transatlantic telephone conversations between North America and Europe has been reduced to the extent of \$15 on each call for the first three minutes, and \$5 for each additional minute. This is the second rate reduction which has gone into effect since the service was inaugurated in 1927.

This reduction has been made possible to a large extent by the increased use of the service. There are now four radio channels linking nearly all the countries of Western Europe with all Bell telephones and Bell connecting telephones in the United States, all telephones in Cuba, and the majority in Canada and Mexico. When the service was first opened, there was but one radio telephone channel spanning the Atlantic, connecting the metropolitan areas of New York City and London for a service period of but four and a half hours a day. That period has gradually been extended until now, the service is on a full twenty-four hour basis, bringing into direct connection some 21,500,000 telephones in North America with more than 8,000,000 telephones in Europe.

On the basis of last year's transatlantic telephone messages, the reduction in rates will mean a saving to the public making use of the service of approximately \$450,000 a year.

Be Liberal With Paint
Paint has many virtues. Besides beautifying your home, it will increase its sale value and, in fact, the valuation and desirability of the entire neighborhood.
Particularly applicable in this connection is the oft-quoted but very true Dutch proverb: "Good paint costs nothing for it saves more than its cost."

How They Stand

The following is the revised to date census figures for the bay cities:

	1920	1930
San Francisco	506,676	625,000
Oakland	216,261	284,213
Alameda	28,866	34,847
Berkeley	56,036	82,000
Richmond	16,843	20,026
Piedmont	4,282	9,302
Albany	2,462	8,593
El Cerrito	1,505	3,848
Emeryville	2,390	2,333
San Leandro	5,703	11,315
